A vision built on opportunity and connection

WHY ILC BEGAN

Language can change the direction of a person's life. It can open the door to education, improve career opportunities, build confidence and help people connect across cultures.

When Inter-Link Language Centre was established in 2012, my vision was to create a welcoming learning environment where students from different countries and backgrounds could develop practical language skills and prepare for a better future.

Over the years, ILC has grown from one learning centre into an international education community serving learners from more than 40 countries. This progress reflects the dedication of our teachers and staff, the trust of our students and parents, and the valuable support of our education agents, institutional partners and stakeholders.

At ILC, we believe effective language education must go beyond textbooks and examinations. Students should be able to express themselves clearly, communicate in real situations, understand other cultures and participate confidently in an increasingly connected world.

Our location in the heart of Kuala Lumpur gives international students the opportunity not only to study, but also to experience Malaysia's culture, diversity and hospitality. We want every learner who joins ILC to feel welcomed, supported and inspired to achieve meaningful progress.

Looking ahead, we will continue improving our academic programmes, teaching methods, digital learning resources and student services. We also look forward to building stronger relationships with universities, colleges, language schools, technical schools, education agencies, companies and organisations in Malaysia and around the world.

Our journey continues with the same purpose that inspired ILC from the beginning: to help people communicate with confidence, discover new opportunities and build meaningful connections across borders.

Building confidence, creating opportunities

WELCOME

Education gives
people the
confidence to
speak, connect
and pursue
new
opportunities

Welcome to Inter-Link Language Centre.

Since 2012, ILC has helped learners develop the language skills and confidence needed to achieve meaningful academic, professional and personal goals.

From one learning centre, we have grown into an international education community serving students from more than 40 countries. This progress reflects the dedication of our teachers, staff, students, parents, education agents, institutional partners and stakeholders.

Learning at ILC goes beyond textbooks. Students communicate, collaborate, experience different cultures and prepare for real opportunities beyond the classroom.

As we grow, we remain guided by quality, integrity, inclusion, innovation and student success. We want to welcome more learners to study languages in Malaysia, explore the country and experience its rich cultural diversity.

We welcome partnerships with universities, colleges, language schools, technical schools, education agencies, companies and other organisations that share our commitment to accessible, internationally minded education.

Together, we can help more learners discover their potential and connect confidently with the world.

Where language builds confidence and creates connection

Inter-Link Language Centre, widely known as ILC, is a language education institution based in Kuala Lumpur, Malaysia.

Established in 2012, ILC provides English and international language programmes for local and international learners seeking academic preparation, professional development, everyday communication skills, and greater confidence.

Our educational approach combines structured learning, practical communication, interactive classroom activities, and continuous student support. Every programme is designed to help learners move beyond memorisation and use language confidently in real situations.

OUR PURPOSE

To connect people with education, opportunity and one another through high-quality language learning.
